

SWIM MEET MANAGER 7.0 NEW FEATURES

Updated June 19, 2017

ABOUT SWIMMING MEET MANAGER 7.0

MEET MANAGER 7.0 *for Swimming* (SWMM) is HY-TEK's 8th generation of Meet Management software.

- ✓ Provides the very highest level of functionality for Swimming coaches, parents, volunteers, and officials.
- ✓ Easy transition from SWMM 6.0 and prior versions.
- ✓ 17 new features have been added.

General Release – June 19, 2017

NEW FEATURES

- File Menu
 - In **File > Duplicate**, you can now duplicate an existing meet to create a new meet with new **Start, End** and **Age-up Dates** and selectively purge **Entries, Seeding, Scores** and **Teams** data.

- Set-up Menu

- When using the Timed Final Multi-Age Super Seed feature, in the **Set-up > Entry / Scoring Preferences > Disability Meet** tab, disabled swimmers can be set to be seeded together with all other swimmers by checking the **If Timed Final Multi-Age Seed is set, seed Multi-Class Athletes with their age group** check-box.
- To lock seeded events against reseeding, check the **Set-up > Seeding Preferences > Basic > Lock all events for reseed** check-box.

- Relays Menu

- In **Relays > Add a Relay**, an Athlete can be assigned to a position on a Relay Team by clicking and dragging the athlete from the Eligible Athletes list into the Relay Order list.

- **Run Screen**

- In the **Run > F9 > Prelims Scratch Sheet**, you can print out the current data grid as a report. On the generated report, each heat is separated by lines based on the next round's heat and lane settings. If there is a tie for any slot requiring a swim-off, then a warning will be displayed and you can select to continue or abort printing the report.
- When setting-up a swim-off, tied athletes or teams are automatically listed for you to select to seed for the swim-off event.
- In the **Run > Calc > Time Adjustment** screen, **Adjusted HPL** and **Adjusted PL** columns show the adjusted heat placings and adjusted placings, respectively.
- The **Run > Reports** menu now offers a set of reports that is consistent with the **Reports** menu.

- Run Screen

- If an event has swim-off event results, then Meet Manager can automatically break ties based on the swim-off results and create the Judge's Decision placings.

- Reports Menu

- In **Reports > Entry Lists**, exhibition entries are marked with an **X** in front of the entry time.
- To include split boxes in the Lane/Timer Sheet, check the **Reports > Lane/Timer Sheets > Parameters > Include Splits** check box and then select a **Split Distance**.
- The **Reports > Entry Lists** report has been re-formatted for better readability.
- For UK-based meets only, in the **Reports > Psych Sheet** report, when sorting by **Slow to fast** or **Fast to slow**, **No Time** entries are always sorted from youngest-to-oldest.

- Reports Menu

- To generate flighting meets, in which the fastest heats of each event are placed together, check the **Reports > Meet Program > Psych List - Sort Order > Flighting meet** check-box and enter the number of fastest heats to place in a flight in the **Fastest heats for A flight** box.
- In **Reports > Exceptions Reports > Miscellaneous**, you can now select to include swimmers whose time intervals between seedings is less than the entered number of minutes.
- In the **Reports > Exceptions Report > Max Entries** tab, you can now generate a report to list athletes who exceed the Max Bonus entries and have fewer than the Min qualified time entries.
- In the **Reports > Teams > Entry Fee Summary** tab, check the **Only Time Trial** check box to list only Time Trial events.
